

The promotions process at Victoria University is evidence-based and impact focused. Table 1 on the next page provides an overview of the performance expectations and evidence required for applicants when applying for promotion. Applicants need to provide evidence not only of their activities in each area, but also the quality and impact of their contribution. The type of evidence is often the same at each classification level, but differentiated by impact, scale, scope, duration and degree of leadership. All academic staff can also use this Guide for career planning and preparation for the Staff Performance and Development Plan (SPDP) reviews, in addition for the purposes of promotion.

Academics at Victoria University will need to identify the Academic Category (that is, Teaching and Research Academic; Research Focused Academic; or Teaching Focused Academic) when applying for promotion. The Academic Category that is identified should align with those used in the SPDP.

The Themes of Academic Activity (that is, Learning and Teaching; Research; and Academic Citizenship and Engagement) and their constituent criteria vary in emphasis, depending on the Academic Category, the Academic Level for promotion and the career trajectory for each individual academic. A case for promotion needs to be built around evidence and impact based on an individual's history, outputs, achievements, relevant impact and experience in academia and industry.

The following Guide covers the criteria for promotion and makes suggestions about where certain types of evidence may be used<sup>1</sup>. **This Guide is not a definitive list and applicants can add other types of evidence depending on their discipline and area of expertise.** The examples are indicative rather than prescriptive or exhaustive. This means that applicants are not expected to have done all the activities listed but to provide evidence against all relevant claims made by the applicant. The Guide will be periodically revised to ensure its relevance and usefulness.

For further information, applicants should refer to Victoria University's Higher Education Promotions Policy and the Higher Education Promotions Procedures, which are to be read in conjunction with this document.

#### Indicative evidence for the 'Design and planning of learning activities' criterion:

- Unit/course outline and materials.
- Report from unit and/or course coordinator.
- Student surveys and feedback to students on response/outcomes.
- Student feedback from focus groups.
- Tutor feedback on preparation, organisation or mentoring support.
- Feedback from teaching teams.
- Expert peer review on course/program materials and innovation.
- Details of leadership roles and specific contribution.
- Details of mentoring and support of colleagues.
- Letter from Chair of Courses Committee on contribution.
- Awards and citations for learning materials.
- Text book awards.

## Criteria for the Learning and Teaching Theme

### Criterion 2: Teaching and supporting student learning

#### Indicative evidence for the 'Teaching and supporting student learning' criterion:

- Student surveys and feedback to students on response/outcomes.
- Student feedback from focus groups.
- Examples of student work/theses.
- Postgraduate student grades and time to completion.
- Systematic monitoring of student learning outcomes.
- Peer review and personal responses to the review and practices.
- Adoption of innovation by others.
- Impact of innovation/initiative within university or wider.
- Impact of mentoring on peers or colleagues.
- Recognition from university national and international peers.
- Short-listed for a teaching award.
- Success in a university, national or discipline teaching award.
- Details of mentoring and support activities that align with key Learning and Teaching strategic objectives.
- Citations, awards, formal acknowledgement of resource development work that supports Learning and Teaching activities.
- Letters of invitation or thanks.
- PhD completions.
- Feedback on PhD supervision.
- Results from external survey such as Postgraduate Research Experience Questionnaire (PREQ).

## Criteria for the Learning and Teaching Theme

### Criterion 3: Assessment and giving feedback to students on their learning and learning support activities.

#### Indicative evidence for the 'Assessment and giving feedback to students on their learning and learning support activities' criterion:

- Unit/Course outline with assessment tasks and marking criteria.
- Student surveys and feedback to students on response/outcomes.
- Student feedback from focus groups.
- Student feedback on learning support activities.
- Extracts from a number of units/courses showing variety of assessment tasks.
- Feedback from course coordinator on assessment tasks and student outcomes.
- Examples of innovative assessment tasks.
- Examples of standards of student learning.
- Data evidencing impact of assessment innovation.
- Use of learning analytics.
- Feedback on role in establishing moderation and standards practices.
- Examples of examiner reports and/or independently moderated student work.
- Peer review of course assessment and response to review.
- Examples of policies, practices and their implementation.
- Peer recognition of leadership role and achievements.
- Peer review of assessment from other universities.
- Innovative strategies/models/resources that support learning outcomes.
- Learning support models/strategies that inform the moderation of student assessment.
- Development of learning support models that strengthen teaching activities.

#### Indicative evidence for the 'Developing effective learning environments, student support and guidance' criterion:

- Student surveys and feedback and responses to these.
- Informal unsolicited student or peer feedback.
- Details of role and engagement in learning communities (formal or informal).
- Use of learning analytics showing student engagement with student support services such as Peer-Assisted Study Sessions (PASS) and English Language Proficiency (ELP).
- Feedback from students and peers relating to roles (e.g. student advisor or leader in learning communities).
- Extent and participation in innovation for student engagement.
- Reports evaluating the effectiveness of targeted student support interventions on student retention and progression.
- Feedback from peers or students mentored.
- Examples of leadership role and outcomes.

## Criteria for the Learning and Teaching Theme

### Criterion 5: Integration of scholarship

#### Indicative evidence for the 'Integration of scholarship' criterion:

- Evidence from unit/course materials demonstrating incorporation of peer-reviewed research from the Scholarship of Learning and Teaching into teaching activities and practice.
- Details of grants and awards (successful and unsuccessful) and outcomes.
- Details of conferences and presentations.
- Copies of publications and details of contribution and impact.
- References and letters from peers.
- Details of mentoring roles and outcomes.
- Details of leadership roles and contribution confirmation by peers.
- Impact of projects, grants and other initiatives for the University or nationally and/or internationally.
- Tertiary Education Quality and Standards Agency (TEQSA) and Office for Learning and Teaching (OLT) recognition as 'Assessor' or 'Expert'.

## Criteria for the Learning and Teaching Theme

### Criterion 6: Support and guidance in the development of Higher Degree by Research (HDR) supervision and related research courses.

#### Indicative evidence for the 'Support and guidance in the development of Higher Degree by Research (HDR) supervision and related research courses' criterion:

- Timely Higher Degree by Research (HDR) completions.
- Evidence demonstrating incorporation of current peer-reviewed research from the Scholarship of Learning and Teaching into Higher Degree by Research (HDR) supervision methods and practice.
- Post-doctoral research fellowship, nationally competitive or international research fellowship.
- Curriculum development documents.
- External reference group feedback on research course.
- Evidence of research metrics (e.g. the ranking of journal and conference outputs).
- Research training participation and attendance.
- Letters from research students and early career researchers on mentoring support.
- Quality of thesis: external assessors reports.
- Research student feedback.
- Industry feedback/survey regarding impact of research collaboration.
- Industry documents illustrating research impact.

## Criteria for the Research Theme

### Criterion 1: Participation in research, grants, collaborative research teams and creative/industry engaged works and projects

#### Indicative evidence for the 'Participation in research, grants, collaborative research teams and creative/industry-engaged works and projects' criterion:

- Internal or external funding for research and scholarship, including grants from competitive granting bodies such as the National Competitive Grants.
- External funding from industry and/or government agencies for research and scholarship via competitive/tender process.
- Election to learned academy.
- Invited industry/professional conference research presentations.
- Assessor's reports on research grant applications.
- External research grant applications letter of acceptance.
- Citation indices.
- Prizes and awards.
- Invitations to present at prestigious institutions or conferences.
- Peer review of applications by external funding committees.
- Academic appointments co-funded by industry partners.

## Criteria for the Research Theme

### Criterion 2: Established record of achievement in research outputs and impact, including the Scholarship of Learning and Teaching

Indicative evidence for the 'Established record of achievement in research outputs and impact, including the Scholarship of Learning and Teaching' criterion:

- Australian Research Council (ARC) grant success.
- Authorship and co-authorship of high quality peer-reviewed journal articles, book chapters, monographs or other refereed publications in discipline area, peer-reviewed research publications on the Scholarship of Learning and Teaching, or clinical and professional practice.
- Evidence of quality and impact such as impact factors and/or citation indexes.
- Curate exhibition or creative work of regional, national or international significance.
- Data reflecting impact from Public Leading Right (PLR) or Copyright Agency Limited (CAL).
- Editor or member of editorial board of high quality national or international journal.
- Editorship of a prestigious work of reference.
- Local, regional, national and/or international research awards.
- Competitive grants with industry partner.
- Invitations to distinguished visiting posts.
- Invitations to give external research related lectures.
- External assessor's reports on research quality and impact.
- Evidence of high quality journal publications, measured through SCImago or an equivalent approved through the provisions in the Measurement of Individual Research Activity Policy and Procedures.
- Research income.

## Criteria for the Research Theme

### Criterion 3 Effective contribution to research partnerships, policy and collaboration

Lecturer (A)	Lecturer (B)	Senior Lecturer (C)	Associate Professor (D)	Professor (E)
<ul style="list-style-type: none"> <li>Evidence of participation in research collaborations at the discipline and course level.</li> </ul>	<ul style="list-style-type: none"> <li>Evidence of active participation in research collaborations funded by competitive grants at the discipline, course and college level.</li> </ul>	<p>Meets the requirements for Level B and:</p> <ul style="list-style-type: none"> <li>Effectively manage research partnerships and projects.</li> <li>Participate in research teams including cross-institutional research teams and industry-based collaborations.</li> <li>Seek external research funding at discipline and college level.</li> </ul>	<p>Meets the requirement for Level C and:</p> <ul style="list-style-type: none"> <li>Seek major external research funding at college level.</li> <li>Participate and provide leadership in research teams including cross-institutional research teams and industry-based collaborations.</li> <li>Develop and provide leadership in research collaborations involving external/industry partners.</li> </ul>	<p>Meets the requirements for Level D and:</p> <ul style="list-style-type: none"> <li>Major contributions to government policy development at state, national and international levels.</li> <li>Contribute to the development of research policy and strategy for the University.</li> <li>Develop major research initiatives that attract external funding.</li> <li>Provide leadership in achieving strategic University research directions.</li> <li>Participate and provide leadership in research teams including cross-institutional research teams, colleges and industry-based collaborations.</li> </ul>

#### Indicative evidence for the 'Effective contribution to research partnerships, policy and collaboration' criterion:

- Membership of expert research panels, for example, the Australian Research Council (ARC), National Health and Medical Research Council (NHMRC) or international equivalents.
- Contribution to developing national research policy.
- Authorship of contracted government, profession and industry reports.
- Research commercialisation, patents and licences, registered designs.
