Policy Framework Hierarchy

[The diagram attached](#) depicts the hierarchy of documents that govern operations at Victoria University. Documents in lower levels of the hierarchy must be consistent with higher level documents.

Act

(5) The University is a body corporate and politic established under the Victorian [Victoria University Act 2010](#) (the VU Act). The VU Act details the overarching functions and powers of the University. One function and power is the ability of the Council to make statutes for the good governance of the University or the management of its affairs.

(6) The University is also subject to other Acts of Parliament which might require the University to have policy and/or procedures in place.

Statute

(7) The University has only one statute: the [Governance, Academic and Student Affairs Statute 2013](#). The statute provides further detail of the functions and powers of the University.

Regulation

(8) Under the VU Act, the Council or the Vice-Chancellor may make regulations. Regulations provide the procedural detail to give effect to the functions and powers of the University. The University has a number of regulations.

(9) University statute and regulations are communicated and made available to the University community and must be complied with.

Policy

(10) Policies are required to facilitate the effective, efficient and equitable administration of the University. Policies are principles based and more general in nature than legislation and state the general approach that the University will take when making administrative decisions that affect staff or student rights and obligations. Policies may be required by legislation.

(11) Each policy is owned by a Policy Owner, who is responsible for the development, review and maintenance of their respective policy.

Procedure

(12) Procedures define the detailed operational action (e.g. processes, templates, forms, etc.) required to support policies within the University. Each procedure must be linked to one or more relevant Act, statute, regulation or policy.

(13) Each procedure is owned by a Policy Advisor, who is responsible for the development, review and maintenance.
