Part B - Clinics and Placements

VU Clinics

(4) VU Clinics are internal University clinics (Clinical Exercise and Rehabilitation, Dermal Sciences, Osteopathy,

Psychology, and Remedial Massage) with supervised interface with the public included in the course. There are two broad types:

- a. Accredited course-led framework: Students are required to complete part of their course in such clinics to meet the requirements of their coursework program.
- b. Non-accredited course-led framework: Clinic hours are not an external mandated requirement for course completion. They represent clinical training required to meet self-accreditation requirements and cognisant of [Australian Qualifications Framework](#) requirements.

Eligibility of students to complete placements

(5) Placement is a compulsory requirement for many Higher Education and TAFE courses. Students in these courses are required to complete mandatory placements to achieve their qualifications. VU Clinics are an avenue for students to fulfil these requirements.

(6) While undertaking a placement, students are required to complete the relevant units of coursework, pre-clinic mandatory document checks that are compulsory before commencing in the clinic and have an opportunity to:

- a. Gain experience in a real work environment;
- b. Complete practical tasks pertinent to their future professional and/or workplace role;
- c. Understand professional and/or workplace expectations and practices;
- d. Learn from experienced staff completing professional and/or workplace tasks;
- e. Develop an understanding of workplace policies and procedures; and
- f. With external placements, build networks that may assist with future job opportunities.

Part C - Managing Risk and Incidents at VU Clinics

(7) The key activities and strategies for risk management in client and community participation include:

Key Activities and Strategies	Description
a. Clinic's risk management system	<ul style="list-style-type: none"> □ The clinical strategic risk register developed in consultation with the Clinical Governance Committee. □ Clinical supervision. □ Quality and safety of clinical services for client-care set out in the National Safety and Quality Health Service Standards. □ Feedback on VU incident reporting for risk and near-misses. □ An Infection Control Manual, including protocols and processes for infection prevention and control that are appropriate for their specific situation of client care by the Australian Safety and Quality Framework for Health Care. □ VU (individual) Clinics policies and procedures. □ Risk management and improvement strategies integrated within improvement and performance monitoring functions.
b. Clinical Governance Committee's purpose	<ul style="list-style-type: none"> □ To oversee and govern the delivery of safe, effective and efficient Clinics run by VU.

Key Activities and Strategies	Description
c. Clinical Governance Committee's role and operation	<p>The Clinical Governance Committee's operation includes to:</p> <ul style="list-style-type: none"> □ Review and monitor the activity of the clinics to ensure that the services of each clinic are compliant with: <ul style="list-style-type: none"> - all applicable legislation; - the professional standards established by the relevant professional body, including registration standards, guidelines and codes of ethics; and - the VU Student Clinics Policy and Procedure. □ Encourage continuous improvement of clinic operations and obtain assurance that systems are in place to deliver improvements. □ Quarterly reports on the operations of all clinics from the internal student health clinics committee to the Clinical Governance Committee. □ The Clinical Governance Committee will report to the Learning and Teaching Quality Committee on governance-related matters and will meet quarterly per the calendar year.
