Section 3 - Policy Statement

(11) VU is committed to providing a safe, inclusive and high-quality learning and working environment, where concerns and complaints are managed with integrity, transparency, and respect.

(12) VU's [Complaints Management Framework](#) (the Framework) establishes the principles and governance arrangements that guide VU's approach to complaint management. The University recognises that complaints are a legitimate and valuable form of feedback that supports institutional accountability, improves services, and strengthens trust between the University and its stakeholders.

(13) The University seeks to provide a complaints process that:

- a. is easily accessible for all;
- b. encourages open discussion and communication;
- c. investigates and resolves complaints in a timely manner;
- d. applies principles of Procedural Fairness, as appropriate;
- e. attempts to resolve complaints as close to the source as possible;
- f. is free from victimisation and retaliation;
- g. does not pursue investigations of frivolous or vexatious complaints; and,
- h. maintains clear and separate roles in supporting Complainants and Respondents, to avoid conflicts of interest and ensure appropriate support is provided to all parties.

(14) Complaints will be managed in accordance with the University [Privacy Policy](#). This means, among other things, that:

- a. complaints will be treated by all parties with appropriate confidentiality;
- b. the number of people involved in the complaint resolution process is kept to a minimum;
- c. complaint records may be disclosed to appropriate officers of the University or external authorities, as required by law and/or in accordance with the University's duty of care obligations;
- d. complaints will be able to be raised anonymously;
- e. de-identified data may be used by the University for reporting purposes, including to external agencies; and,
- f. information systems and records are maintained securely and confidentially as necessary to document and record responses to formal complaints.

(15) Complaints involving Gender-Based Violence may engage additional processes under the University's [Gender-based Violence Policy](#) and associated procedures. These processes may operate alongside or in coordination with this Complaints Policy.

(16) Complainants may elect to remain anonymous when lodging a complaint. In certain circumstances, electing to remain anonymous may restrict the University's ability to assist, or may limit the complaint outcomes available and may limit the University's ability to respond to the matter or parties involved.

(17) Complaints will be handled in accordance with the principles outlined in the VU Complaints Management Framework, and as per the processes specified in the [Complaints Procedure \(Staff\)](#) and [Complaints Procedure \(Student and Public\)](#).

(18) A Complainant has the right to withdraw a complaint at any stage of the process. However, VU retains the right to investigate and/or address complaints, even in cases where a complaint has been withdrawn. For example, VU may be required to investigate a complaint in order to meet its obligations.

(19) Lodging a complaint does not excuse a Complainant from compliance with their own obligations. For example, a Complainant may still be subject to disciplinary action by VU if they are also:

- a. the subject of an action under the [Student Misconduct Regulations 2019](#); or
- b. subject to exclusion under the [Exclusion for Safety Reasons Regulations 2019](#); or
- c. subject to a cancellation of enrolment due to unpaid fees, where fees are unrelated to the substance of the complaint; or
- d. the subject of any relevant court order or action; or
- e. subject to any disciplinary action under the relevant policies or Enterprise Agreements.

Complaint-handling approach

(20) The status of the respondent will guide which procedure each investigation follows:

- a. Matters where both parties are Staff will be handled by People and Culture under the [Complaints Procedure \(Staff\)](#). People and Culture may appoint a relevant independent expert within or outside the University to conduct the investigation.
- b. Where the Discloser is a Student who identifies the Respondent as a VU Staff member for the purposes of the report, the matter will be investigated and dealt with by People and Culture under the [Complaints Procedure \(Staff\)](#) or the relevant Staff Enterprise Agreement, if the matter is alleged as Misconduct or Serious Misconduct.
- c. Where the Complainant is a Staff member who identifies the Respondent as a VU student for the purposes of the report, the matter will be investigated and dealt with by the Integrity Office under the [Complaints Procedure \(Student and Public\)](#).
- d. Where the Respondent is from an organisation affiliated with the University, the University may, with the Complainant's consent, refer the matter to the affiliated or associated organisation for the organisation to investigate.
- e. Where the Respondent is a member of the public and is not affiliated or associated with the University in any way, the University has no authority to investigate the report and determine if they are substantiated. Support and referral services will still be made available to the Discloser.

(21) All complaints are centrally coordinated and managed by either the University's SCIO and/or People and Culture (P&C) team, who ensure a fair, timely, and consistent process. This Policy supports a transparent and accessible complaints system that contributes to continuous improvement.

(22) Complaints will be addressed by either:

- a. Local-level Resolution: Complainants are encouraged, if appropriate and possible, to try to resolve their complaint with the relevant person or area if they feel comfortable doing so. For example, a staff member may raise their concerns directly with the respondent or their manager, and a student may choose to raise concerns with their lecturer if they feel comfortable doing so.
- b. University managed resolution: The University will manage the resolution of complaints in accordance with this policy and the appropriate procedure.

(23) Complaints that include allegations of gender-based violence may be referred into staff or student misconduct/disciplinary processes, with risk assessment and protective measures applied on a survivor-led, trauma-informed basis.

(24) Complaint outcome review processes are outlined in the [Complaints Procedure \(Student and Public\)](#) and [Complaints Procedure \(Staff\)](#). These procedures outline where to go to apply for review or to lodge a further complaint with an external organisation such as the Australian Human Rights Commission, Victorian Privacy Commissioner, Victoria Police or National Student Ombudsman.

(25) Any complainant who uses the complaints process to make a frivolous or vexatious complaint or who is deliberately misleading in relation to a complaint may be subject to misconduct proceedings.

Recording, Reporting and Continuous Improvement

(26) VU will make, maintain and manage a complete record of all complaints raised through this policy and associated processes and their outcomes including withdrawn complaints.

(27) Complaint data, findings and themes will be analysed to identify opportunities for service improvement, and

relevant areas of the University will be provided with feedback to inform continuous improvement.

(28) The SCIO and/or P&C teams will report (at least) annually to the Academic Board and other relevant Corporate Governance Committees on complaints data, trends and analysis in order to address any systemic issues and improve VU's policies, procedures and processes.
